SUMMARY

BS Artificial Intelligence student with hands-on experience in **Python, SQL, data analytics, machine learning, and AI development**. Skilled in data cleaning, analysis, visualization, and building practical AI applications. Completed professional certifications in **Google Data Analytics, Artificial Intelligence, Python, and AI development**. Seeking an **internship or entry-level opportunity in AI, Machine Learning, Data Analytics, or Python development** to apply technical skills, gain real-world experience, and contribute to practical projects.

PROFESSIONAL EXPERIENCE

Machine Learning Engineering Intern

FlyRank AI

07/2026 – 08/2026

Kamalia, Punjab,
Pakistan

- Completed hands-on machine learning assignments involving **Python, data preparation, data analysis, and machine learning workflows**.
- Applied **machine learning concepts** to practical problems and portfolio projects.
- Built and documented **AI and machine learning projects** as part of the internship program.

AI Researcher & Content Creator

Computing & Artificial Intelligence Society

05/2026 – Present

Kamalia, Punjab,
Pakistan

- Research **AI, machine learning, and emerging technologies** while contributing to AI-focused research initiatives.
- Create educational content that clearly communicates **technical concepts** and supports AI education and knowledge sharing.
- Collaborate with team members on society initiatives that support **innovation, learning, and community engagement**.

EDUCATION

Bachelor of Science in Artificial Intelligence

University of Kamalia (UOK)

09/2025 – Present

Kamalia, Punjab,
Pakistan

Bachelor's degree in Artificial Intelligence with coursework in programming, machine learning, databases, data analysis, and computer science.

Grade: A+

FSc Pre-Medical

Associate College for Women, Kamalia

09/2023 – 07/2025

Completed Intermediate (FSc Pre-Medical) with coursework in Biology, Chemistry, and Physics, developing strong analytical thinking, problem-solving, and academic discipline.

Grade: A

Matriculation (Science)

Government Model High School, Kamalia

04/2021 – 04/2023

Completed Matriculation (Science) with coursework in Mathematics, Physics, Chemistry, and Biology, developing strong analytical thinking, problem-solving, and academic skills.

Grade: A

SKILLS

Programming

Python, C++, SQL

Data Analytics

pandas, NumPy, Data Cleaning, Exploratory Data Analysis (EDA), Statistical Analysis

Machine Learning

Regression, Classification, Machine Learning Fundamentals

Artificial Intelligence

AI Agents, Generative AI, Prompt Engineering, Hugging Face, API Integration

Data Visualization

Matplotlib, Power BI

Tools & Platforms

Jupyter Notebook, VS Code, Git, GitHub

LANGUAGES

English

Professional working proficiency

Urdu

Native language

Punjabi

Native or bilingual proficiency

CERTIFICATES

Supervised Machine Learning: Regression and Classification

DeepLearning.AI [🔗](#), Coursera | June 2026

Google AI Essentials Specialization [🔗](#)

Google | January 2026

Introduction to Data Analysis Using Python [🔗](#)

Google | August 2026

Google AI Professional Certificate

Google | August 2026

AI for Data Analysis [🔗](#)

Google | August 2026

Certificate of completion:

Claude code 101 [🔗](#)

Anthropic Academy | July 2026

AWARDS

Gold Medal Achievement Award — 1st Position, 2nd Semester

University of Kamalia

10/07/2026

Awarded the **Gold Medal Achievement Award** for securing **1st Position in the 2nd Semester of the BS Artificial Intelligence program** at the **University of Kamalia**.

Two-Week Programming Fundamentals Training — 1st Position

Skills Development Program 2026, University of Kamalia

18/08/2026

Successfully completed a **two-week Programming Fundamentals training program** with a focus on **Python** under the **Skills Development Program 2026** at the **University of Kamalia**, securing **1st Position**.

PROJECTS

On Time, On Point — Delivery Performance & Customer Satisfaction [🔗](#)

Google Data Analytics Capstone | Python | SQL | Power BI

- Analyzed the **Brazilian E-Commerce Public Dataset by Olist** to evaluate delivery performance and customer satisfaction.
- Cleaned, transformed, and joined data using **Python, pandas, NumPy, and SQL**.
- Compared delivery performance across **customer states, product categories, sellers, and time periods**.
- Found a **93.2% on-time delivery rate** across **96,476 delivered orders**.
- Identified a **Pearson correlation of -0.267** between delivery delay and review score.

- Created analytical datasets, visualizations, SQL queries, and a **Power BI dashboard**.

Rahman AI Student Success Agent

AI Agent | JavaScript | Node.js | Hugging Face

- Built an **AI-powered student support application** for goal analysis, study planning, practice, assessment, and coaching.
- **Integrated Hugging Face inference capabilities** to generate intelligent, context-aware responses.

Muqaddas AI Learning Assistant

AI | Python | Web Development

- Developed an **AI-powered learning assistant** to support students with learning and study-related tasks.
- Applied AI concepts to build a practical, **student-focused learning solution**.
- Designed an interactive assistant to provide **personalized learning support**.

Smart Student Result Management System

Python | Programming Fundamentals

- Developed a **menu-driven application** for managing student results.
- Implemented **marks validation, total, average, percentage, grade, and pass/fail calculations**.
- Used **functions, loops, conditional statements, and match-case** to structure the application.
